- Upcoming Agenda

Professor David Stradling

Interim Director of the School of Environment & Sustainability

Sustainability Strategy

- A sustainability strategy is a prioritized set of actions that provides a framework for investments and drive performance.
- This can help engage internal and external stakeholders.

Where to Start

- Vision
- Identifying issues that matter
- Prioritizing
- Targets
- Implementation

Communication Discussion

- How can you best engage stakeholders?
 - Students
 - Local Residents
 - Staff
 - Upper management

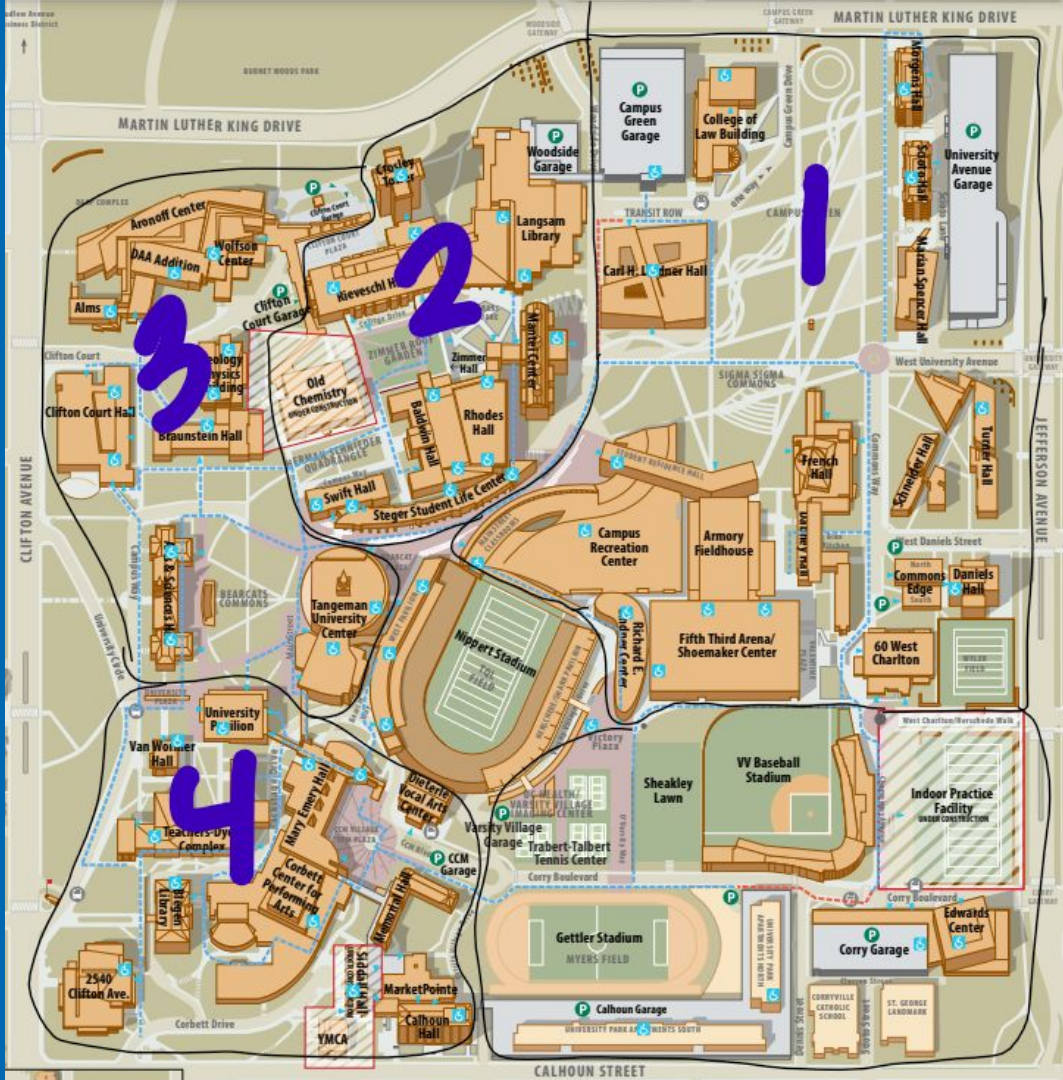

Campus Walk

- We will split you into 4 groups
- Take note of completed implementations
 - LEED buildings, green spaces, composting, recycling, etc.
 - How can we make these known to UC students & staff?
- Brainstorm further actions to continue and improve UC's strategy.

Upcoming Events

- Thursday 2/15 : Consulting HCR Sustainability Grant Workshop

- Tuesday 2/20 : Leadership Transition & Development
